5. A Phosphoprotein present in milk is

a. histone b. casein c. mucin d. insulin

6. The metal present in Ceruloplasmin is

a. Fe b. Ca c. Cu d. Mg

7. The differential base present in DNA and RNA is

a. Adenine b. Guanine c. Cytosine d. Uracil

8. Which of the following is ketohexose

a. Glucose b. Fructose c. Ribose d. Galactose

9. Sucrose is a

a. Disaccharide b. Monosaccharide c. Trisaccharide d. Tetra saccharide

10. Lactose is made up

a. Glucose & mannose b. Fructose & glucose

c. Ribose & ribulose d. Glucose & galactose

11. Which of the following is known as animal starch

a. Glycogen b. Amylose

c. Cellulose d. Amylopectin

12. rRNA is present in

a. Nucleus b. Plasma membrane

c. Ribosome d. Nuclear membrane

13. Phosphatitylcholine is

a. Cephalin b. Lecithin

c. Ceramide d. Myristate
