3. Go to format in the menu bar and choose merge cells. Or select the cells and press right click of the mouse button. Then select merge cells option.

23.4 Generate Auto Numbers

Libre Office Calc allows you to generate auto numbers. To generate auto numbers, follow the steps given below.

1. Enter first two numbers of the series in two cells.
2. Select both the cells
3. Move the cursor to the right-side bottom of the cell. The cursor will change to plus sign.
4. Drag the plus sign to the cell you desire.
5. The numbers will be generated automatically. You can generate any series by using this method.

23.5 Functions

Functions can be used to perform simple or complex calculations. You can use different formulae in Libre Office Calc. A formula in Libre Office Calc starts with an equal to (=) sign.

23.5.1 Text Formula

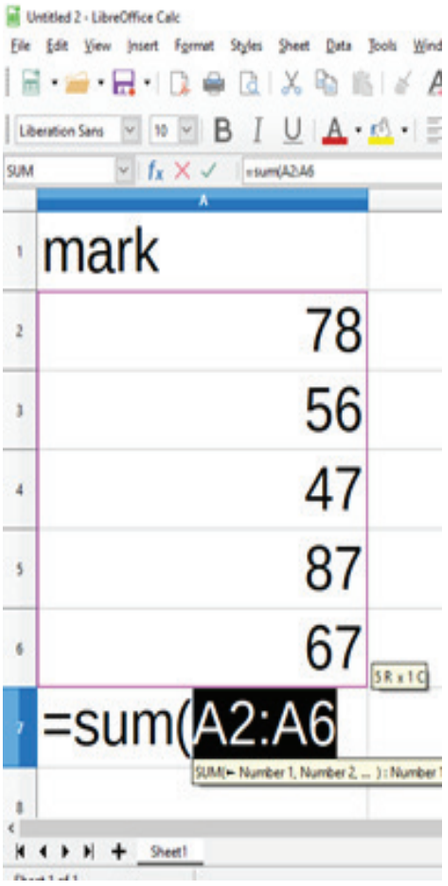

To create a simple text value, enclose it in double quotes. The ampersand (&) character is used to join text values to one another.

For Example = “Libre” & “Office”

The result of this formula is ‘Libre Office’

23.5.2 Statistical Functions

In Libre Office Calc, there are many predefined formulae that can perform specific calculations. Some of them are given in the worksheet.
