23.7 Sorting Data

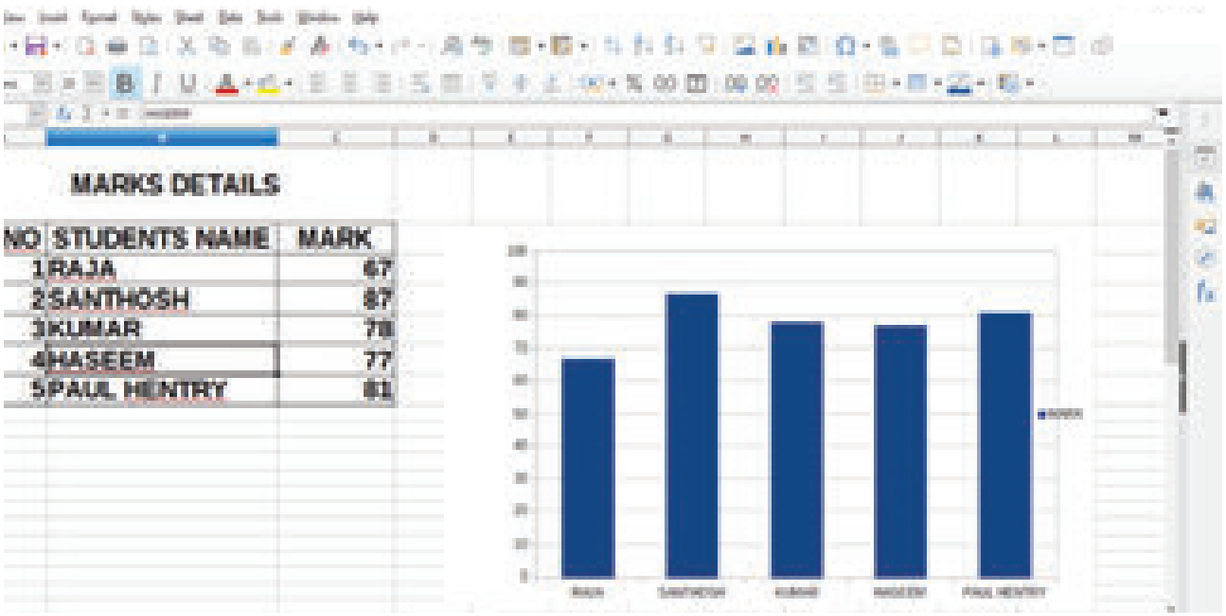

Arranging a given set of data according to a particular order (ascending or descending) is called sorting.

- Select the data which you want to Sort
- Click on **Data → Sort**

23.8 Working with Charts

One of the most popular features of Libre Office Calc software is to generate charts based on numeric data. The purpose of chart is to visualize the data for easy understanding. To draw a chart, follow the procedure given below:

- Select the data which you want to chart.
- Click on **Insert → Chart** or click on the Insert Chart icon.

TEXTBOOK EXERCISES

RULSQY
