Unit 3 Drama

Old Man River

Dorothy Deming

F5EK1T

Warm Up

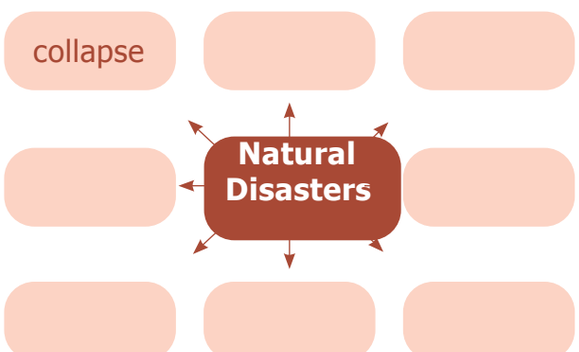

Look at these pictures of cyclone, floods, earthquake and tsunami.

A. Discuss in pairs for two minutes on any one of these natural disasters. You may use the following points.

- Causes
- Damages
- Precautions

B. Fill the word web with words related to natural disasters. One example is done for you.

C. Imagine a situation where your house is surrounded by water and answer the following.

i. What health hazards are caused when water stagnates around your place?

ii. When there is a power shutdown for long hours during floods, what will you do?

iii. What precautions would you take if there is an announcement about flooding in your area?

D. List out the human activities which have an impact on nature. Complete the tabular column. One is done for you.

Human Activities	Impact on Nature
1.Dumping of toxic waste into oceans	Affects marine life
2.Using of aerosol and air conditioner	
3.Encroaching in forest area	
4.Disposal of non-biodegradable wastes	
5.Emission of smoke from industries and vehicles
