Poster Making

Posters are a mixture of notices, advertisements, and invitations. They may be in the form of large hoardings to be put up on walls, or the size of handbills and charts to be displayed on notice boards. Hence, they have to be captivating, attractive and persuasive so as to influence a large number of people.

M. The Adventure Club of your school is organising an expedition to Kolli hills. Design an attractive poster for the same, giving relevant details. (The following table will help you design your poster.)
